

### I Saw the Dead Raised Through Prayer and Intercession

October 19, 2014

In 1980, when my daughter was four and a half years old, she told me that she would like Jesus to come into her heart. I led her to the Lord and two weeks later she was hit by a motor cyclist, suffered severe head injury and ceased breathing for two hours, before reaching Bustamante Hospital for Children. The doctors just looked at her and left. During this time I stood in the Casualty Department, talked to God and asked for His divine intervention.

I was convinced that the Devil was angry because the little child had committed her life to the Lord, so he moved in to destroy her. But God heard my cry and responded to me in an awesome way and allowed the dead child to sneeze. The Lord said, 'I have put back breath in your child.'

An x-ray of her head was done. On looking at the x-ray, the doctor said the child should not be breathing because of the severity of the head injury. I told him, she had stopped breathing for two hours, then he said 'And so what!' I told him that I had prayed and had interceded and the Lord restored her life. The doctor remained silent. My daughter was admitted to the ward where

she spent five days under observation. Before leaving the hospital, she told me that she would be going to the prayer breakfast to dance for Jesus. She did after being put onto the platform and not only did she dance for Jesus, but the entire congregation gave glory to God. She has had no after-effects from this accident but has been an "A" student. Today she is a medical doctor and specializes in Paediatric Medicine.
